BOOK SYNOPSIS

After two decades of implementation, the Comprehensive Agrarian Program continues to be the object of political controversy in the Philippines. Volume 1: Competing Views and Strategies on Agrarian Reform: International Perspective aims to broaden the discussion by focusing on international political, policy and theoretical debates, as well as on some empirical cases from different countries that are relevant to the study of agrarian issues in the Philippines. Volume 2: Competing Views and Strategies on Agrarian Reform: Philippine Perspective aims to deepen the discussion by focusing on the Philippine agrarian reform experience, but drawing lessons that are relevant to theory-building and to policy discourse and political actions in situations elsewhere. The overarching theme of the twin books is "critical thinking": conventional assumptions are interrogated, popular propositions critically examined, and new ways of questioning proposed.
