BOOK SYNOPSIS

This revised, updated edition is intended especially for students and teachers in high schools where mathematics is still taught in the three-course sequential math format. The book is also useful as a general high school mathematics review manual. Among the many topics covered are algebraic methods and complex numbers, functions and circles, trigonometry and solving triangles, and an introduction to probability and statistics. The book also features four recently given New York State Regents Course III Exams, answer keys, and a glossary of math terms.
