BOOK SYNOPSIS

Chelsea Arnold is not a Chadwell, as her mother incessantly reminds her. And if she doesn't learn to play the game, she'll never see a dime of her new step-daddy's money. So Chelsea puts on the act and dutifully follows the Chadwell family rules: everyone has to work in the family bar to learn life lessons. Little do they know, she already knows the biggest lesson of all: the best thing to be is underestimated. Then they'll never see you coming. And in a few more weeks when she's tucked enough cash away, she'll be out of here, leaving her new family and her washed-up mother behind, because all Chelsea wants is freedom. Inheritance be damned. But when her step-father learns he has a son he never knew about, it throws her plan off the tracks. While another son and an ex-wife sharing her husband's affections are too much for Chelsea's mother to handle and she heads for the hills, the rough around the edges Warren "Ware" Chadwell is enough to tempt Chelsea to stay. Despite the fact that all he has to offer is everything she's determined to shy away from, the boy from the wrong side of the tracks knows how to push her buttons in all the right ways, no matter how wrong it is.
