## BOOK SYNOPSIS

**TIED UP** Returning home to help out with his brother's dude ranch is cool with Ethan. After all, he's as comfortable in the saddle as he is roping a calf. But what's really jangling his spurs is a chance to indulge his kink in the ranch's monthly Giddyup event. Did someone say suspension bondage? Yee-Haw! **TEASED** When Victoria realizes her family's number one goal in sending her to college is to get her hitched to a husband, she drops out one semester shy of graduation. But paying her own way turns out to be the hardest lesson of all. Thankfully she's found her way to the Hilltop Ranch. A place to get away and refocus. And get herself all tied up . . . **TAKEN** Sure, Ethan's pretty handy with that length of rope. But it turns out the expensive design school wasn't a total waste for Victoria. Bringing an "academic" approach to their play—and Ethan's hobby—is opening up new possibilities. Like maybe the chemistry between them is something more than a game . . .
