BOOK SYNOPSIS

This brief, best-selling Western civilization text has helped thousands of students learn about the world they live in by exploring the story of its past. Jack Spielvogels engaging, chronological narrative and extensive inclusion of primary source documents, weaves the political, economic, social, religious, intellectual, cultural, and military aspects of history into a gripping story that is as memorable as it is instructive. Each chapter offers a substantial introduction and conclusion that sparks students imaginations by giving them a context within which to understand these disparate themes. And while the single-author narrative makes it easy for students to follow the story of Western civilization, Spielvogels use of maps and primary sources--including official documents, poems, and songs--truly enliven the past while introducing students to the challenges involved in interpreting history. The richness of the texts pedagogy, in tandem with its brevity, make it the ideal choice for instructors who wish to offer students an economical yet trusted book, or those who use a primary text in combination with readings and materials of their own selection.
